

- it is possible the talk by microtelephone and intercom,
- it is possible duplex call by directly communication,
- diversification of call-sign by telephone call from the automatic central,
- optical signalling telephone call,
- it is possible set on stand-by of subscribes connection in the automatic central,
- automatic switching to battery supply without break of the connection while the supply disappeared.

This device has two independent operator's stands and contain three independent units:

- main unit UD 0199,
- power supply unit 0199-5000,
- line protection unit 0199-4000.

Technical data:

- power supply: 220 V, 50 Hz AC, and 25 V DC
- power consumption: 45 VA, 35 W
- acoustic power: 1 W/8 Ohm
- operation temperature range: $-10 \div +50^{\circ}\text{C}$
- weight and dimension:

main unit	430 x 145 x 340 mm, 9,5 kG
mount high	130 mm
power supply unit	150 x 366 x 90 mm, 4,6 kG
line protection unit	200 x 250 x 30 mm, 2,5 kG
